Rajesh Babu

ICAgile Certified Product Owner | Business Process Automation
& Custom Products | Working cross-functionally , Focusing on
customer problems, Creating end-to-end products
Auckland, Auckland, New Zealand

Summary

Hello, I am Rajesh and I have a track record of delivering products
that incorporate innovation and technological advancement in every
iteration by providing great leadership in keeping the squad customer
obsessed and bringing my business process knowledge , technical
knowledge and skills to bridge the gap between the business
requirements and the technology focussed team.

I am able to bring my experience with studying and working in an
Agile framework to ensure my squad delivers continuous value to
our customers , while implementing repeatable, well documented
processes for reliability and low tech debt.

A few of my proudest achievements are :
* Creating automated provisioning processes to offer customers a
24X7 one-click journey for various marketing campaigns
* Creating bespoke applications that accelerate data privacy checks,
automate configuring sales dashboards and eliminate human
involvement is repeatable business processes.
* Managing technical debt continually to enable the squad to
concentrate on creating new products and increase reliability of the
production environment.

If you would like to talk about agile product management , product
design based on business requirements, continuous delivery,
delivering and measuring value please feel free to connect with me !
